Masterkey for locking system art.no.: 99011

Does your workplace have IT products you need for daily use?
Are the computers on the floor and sucks up dust by the fans?
Safeware has a wide range of products that practical and ergonomic get your IT in place.
Is there a risk that you are exposed to theft or burglary we have the products that make it difficult for the thief and keeps your IT safe.
Keep in mind that the products are not that important, but that you avoid downtime and loss of information.
We recommend IT-lock delaying the thieves in combination with alarm that notifies the Guardians that something has happened.
